Denmark

Dear Sylvia and Ira

Thank you so very much for your kind letter and the marvelous photos. I do agree: they were great! And they shall always remind us of your visit this summer. My mother and Olga are so glad that you enjoyed the evening they arranged.

We are happy to learn that your trip to Sweden and Norway was a pleasant one. It's two beautiful countries with a nature completely different from that of Denmark's, which you unfortunately only saw a glimpse of.

We hope that you will save more time for Denmark on your next visit. After all we do have a lot of interesting places which, I am sure, you will adore.

In August Inger and I, together with our four dogs, spent a wonderful holiday in our little, but most beautiful situated "forrest-cottage" in Jylland - only a very few yards from the beach. While we were there we visited my mother's brother: Jacob Garp in Tinglev. I would like you to meet him and his wife.

In November Inger and I are going to London for the second time this year. We will stay there for a week, and we do hope that some nice Shows are on at that time. Further we are looking forward to meet again some of our numerous English friends. While we are there, my mother and Olga will, as usual, stay in our home to look after our dogs, whom my mother and Olga love very much.

Whether or not we some time will visit USA is hard to say, but if so we shall certainly remember your very kind offer as to stay some time with you.

From all of us here in Denmark please receive our sincerest regards, which please pass on to Marion and Mabel when possible.

Lots of love from

Aunt Mary, Olga, Inger and
